

KONICA

the sharp one

KONICA Auto-S 261

"The lens alone is worth the price"

Konica's Auto-S 261 uses an instant-loading, drop-in 126 cartridge. Yet it looks as sharp and shoots as sharply as an expensive '35.' Because it has a sharp Hexanon f/2.8 lens, a precision coupled rangefinder for accurate focus, a fully-automatic CdS electric eye with a "no-go" feature that lets you shoot only when the light is sufficient, a programmed shutter to 1/250 sec. and many more features. And it costs less than \$70 plus case.

Starter Kit for 99¢
—a \$5.30 value!

\$5.30 worth of Kodacolor film, flashcubes, batteries and an album. Yours for only 99¢ when you buy an Auto-S 261.

"The lens alone is worth the price."

WE ARE PROUD TO FEATURE THE COMPLETE KONICA LINE, AND INVITE YOU TO COME IN FOR A DEMONSTRATION.
